Usually, the nozzle will be rounded (minimising the risk of too much damage) but some are angled and more of a rectangular shape to allow for a more precise trim. Our testers liked its "sleek and professional" design and all agreed that it did a perfect job of tidying up their appearance, cutting their nose hair cleanly and in a pain-free manner. The Good Housekeeping Institute recruited a panel of over 160 men to help our expert testers find the best nose hair trimmers you can buy. They judged how easily, quickly and effectively each model trimmed their nose hair, as well as trialling any attachments on their ears, eyebrows and facial hair. . Not only were 86% impressed by how easily it managed to cut through nose hair, but 93% didn't experience any painful tugging while it worked its styling magic. Everybody found it easy to control and straightforward to use, with the entire panel also agreeing that it was an excellent ear hair trimmer. The end result? It wasn't the quietest, but the quality of its shave impressed our panel so much that every tester plans to continue using it.No one had a problem changing the attachments and 92% loved how premium it felt to hold and use, partly thanks to its rubber grip. Lastly, consider whether your chosen nose hair trimmer can be used wet or dry. The ideal kit for achieving an A-list look, it includes two precision combs and a shaping attachment for neatening out the edges of facial hair. Happily, this option ticks that box at the bargain price of less than £5. Our panel were impressed by its effective performance, with 85% happy with how quickly it got the job done and 92% pleased with how easily it cut their hair, meaning they didn't have to keep going over the same patch. Nose hair trimmers aren't particularly expensive when you remember that many male grooming electricals can set you back over £100. In short, no. They manage to grab every hair without getting too close to the delicate nostril skin.Does a nose trimmer permanently remove hair? Some pricier options come with eyebrow and precision comb attachments, so consider whether you'd use these before parting with more cash.They also come in a range of shapes and sizes. Back at the Good Housekeeping Institute, we used a noise meter to assess the volume of each trimmer during use, with results ranging from fairly loud to quiet. It also managed to score three out of five in our lab test, meaning it was fairly quiet during use.
